

4X4 Benefit Ride

Hale Mountain OHV Park

June 20, 2015

All proceeds benefit Charlotte Dalton

Charlotte is 3 years old and has **Dravet Syndrome** – a catastrophic form of epilepsy. One of the recognized cures for Dravet Syndrome is **CBD Oil**, or cannabidiol, which is derived from medicinal marijuana. Medical use of CBD Oil was illegal in Charlotte's home state of Alabama. Her family is fighting for Carly's Law which would authorize CBD Oil for medicinal use to help Charlotte and other children like her.
